

Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Saturday 05 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:

Rain initially in the west, progressing eastwards overnight. Feeling mild.

This Evening and Tonight:

Rain continuing in the west of the region this evening, remaining largely dry in the east. The rain will track eastwards overnight, leaving western areas largely dry by dawn. Cloudy throughout. Another mild and muggy night. Minimum temperature 10 deg C (50 deg F).

Sunday:

A cloudy day across the region. More persistent rain in the east, while western areas are more likely to see showers, these heavy at times. Warm, but cooler than recently. Maximum temperature 21 deg C (70 deg F).

Outlook for Monday to Wednesday:

Largely dry on Monday and Tuesday, with patchy cloud allowing for sunny spells. Outbreaks of rain on Wednesday, these mostly restricted to western areas. Feeling warm through this period.
